PROFESSIONAL SUMMARY

Network Engineer / NOC Engineer with 2+ years of experience in 24/7 network operations, monitoring, and cybersecurity. Expertise in TCP/IP, VLAN, routing, switching, DNS, DHCP, SNMP, PRTG Network Monitor, and Splunk (SIEM - lab). Proven ability to maintain 99.9% uptime, reduce downtime, and resolve incidents efficiently in enterprise environments.

CORE SKILLS

Network Monitoring, NOC Operations, Incident Management, SLA Management, Alert Handling, Escalation Handling, Network Troubleshooting, Root Cause Analysis, Performance Optimization

WORK EXPERIENCE

Junior Network Engineer - Armtech Computer Services Pvt Ltd (Feb 2026 - Present)

- Monitored 100+ network devices using PRTG ensuring 99.9% uptime in NOC environment
- Handled 24/7 monitoring, alert management, and incident response
- Resolved 50+ incidents weekly within SLA timelines
- Reduced network downtime by 30% through proactive monitoring
- Configured PRTG sensors, alerts, thresholds, and notifications
- Performed packet analysis using Wireshark for anomaly detection
- Managed DNS, DHCP, SNMP-based services and monitoring
- Coordinated with L2/L3 teams for escalation and resolution
- Documented incidents, troubleshooting steps, and RCA reports

Technical Support Assistant - Armtech Computer Services Pvt Ltd (Sep 2024 - Jan 2026)

- Resolved 1000+ tickets and user issues across network environments
- Improved resolution time by 25% using structured troubleshooting
- Handled LAN/WAN connectivity issues and remote support
- Reduced recurring issues by 20% through root cause analysis
- Maintained documentation and ticketing systems

TECHNICAL SKILLS

Networking: TCP/IP, VLAN, Routing, Switching, OSI Model

Protocols: DNS, DHCP, TCP, UDP, SNMP

Tools: PRTG Network Monitor, Wireshark, Splunk (SIEM - Lab)

NOC: Incident Management, Ticketing Systems, SLA Compliance

Security: SOC Operations, Threat Detection, FortiGate Basics

Systems: Linux Basics

PROJECTS

Network Traffic Analysis using Wireshark - Identified anomalies and suspicious traffic

Splunk SIEM Lab - Performed log analysis and basic threat detection

CERTIFICATIONS

Fortinet Firewall, CICS Red Team, EC Council CSA, Google Cybersecurity

EDUCATION

Diploma in Computer Engineering - Government Polytechnic College (2018-2022)
